---

Hello Jonathan, Please see attached the final FSP for Phase 2 Mobilization 1. The team is out in the field this week and next week. Todd Downham is the ODEQ project manager, Pat Appel is the EPA contractor project manager, and Luis Vega is the support project manager. I am the EPA project manager. I have included the team on this email so that you have their contact information.

I will also be sending you an email with links to site information.

If you are interested in visiting the site, next week may be best. We will be sampling gw and the USGS will be out to do some borehole geophysics Tues-Wed. Let us know if your plan to see the site so we can be assured someone is at the church parking lot to meet you. Direction attached.

**Subject:** New biologist in Tulsa

Katrina,

We hired a new biologist, Jonathan Fisher, here at FWS. Will you add him to the Wilcox email list? He will be working with me on the site.

Thanks,  
Suzanne
